

FINDERS KEEPERS

Editor: Charlene Myers

Presidents Message:

I don't know about you all but it has been pretty darn hot out there to do any serious prospecting. And you would be crazy to go to the desert to do it. The best bet for this summer weather is going metal detecting either in the parks or on the beach. I've been doing a bit of both. It's also a good way to meet new friends, tell them what I'm doing and about our organization. If they are new to metal detecting, we have many in our organization that would love to show them how to enjoy this hobby. I've been noticing that many of our members and others have been getting up pretty early to beach hunt. That puts me at a disadvantage. You know why. I don't do early... Anyway, the parks and beaches are somewhat profitable. Maybe not enough to pay for gas to get there, but the fun is in the hunt. John Howe took a bunch to La Jolla Shores on the 9th and Frank Trutta took a bunch to Pacific Beach on the 23rd of August.

SPMA had their annual swap meet for their meeting. Lots of fun and you get to people watch and have conversations with all kinds of people wanting to get into the prospecting hobby or even those who know it all. All in all, it was a lot of fun and we all sold a few items of whatever. Not a lot of new fangled things, but a lot of older stuff people wanted to get rid of. I sold a few items but had to bring some back with me.

Hey! We are going to the famous Himalaya Mine September 20. This is the World Famous Himalaya Tourmaline Mine. Fun for the whole family. All tools are provided at no extra cost. Regular price is \$75.00 but we will be getting a discount so the price will be \$50.00. We will get all the information as to time and place to meet at our next meeting. For an advance peek, their address is 26439 Hwy 76, Santa Ysabel, CA 92070 and their website is www.highdesertgemsandminerals.com.

It appears as if our claims papers are passing muster with both the county offices and the BLM. Don't wanna jinx myself so I'll leave it there... Hoping to get out in the Summit Claims at our October outing. It should be cool enough by then.

Don't forget our great deal on those 3 gallon buckets. They are moving quite rapidly. We only got 1,000. I thought the original count was 3,000 so get them while they last. They are food grade buckets too so pack your lunch in one...

So, get out to our meeting. You know you're going to have fun.

Sourdough Chet

Cell phones off or on vibrate please.

Searching the Beaches:

By Frank Trutta

Pacific Beach had a slow start but everyone ended up with some finds. Someone came the night before and worked the towel line and left their holes uncovered. Idiots like that make us all look bad.

I worked the low tide area for some time and found a couple of coins. Up on the dry sand I managed to find \$2.05 a junk ring and a 18 inch Sterling Silver chain. My wife came up a couple pieces of junk jewelry \$3.35 in change and a folded \$10.00 bill. Greg and Barbara Heyser came up with an exact Sterling Silver chain like I found, a nice pocket knife and \$1.68 in change, Jerry Kaplan recovered \$3.22 in coins, John Troseth had 44 coins for \$4.77 and a set of keys, my new customer Mark Johnson and his wife stayed only a short time but did get \$1.58 with their new Safari. World famous John Howe "pull tab Johnny" is about to lose his title finding only a couple of pull tabs but did real good finding 34 coins for \$3.90 an earring, set of keys and a real nice Armani watch.

Next month's hunt will be September 20th at Mission Beach out from the parking lot south of the roller coaster at 7:00 am and meet at 10:00 to show off our finds. Should you have any questions call me at my shop Columbia Metal Detectors 760 743-8516 or on my cell phone 760 291-7900.

Hunt smart!

Metal Detecting with John:

By John Howe

Here's the results from the August Metal Detecting Outing at La Jolla Shores. It's a short report because only one member showed up. Might be because I forgot to send out the reminder (I was out of town)! Jerry Kaplan was there and he found 24 coins for \$2.30, a working cell phone and a tube of Russian antibiotic (I hope whatever he had, it's not contagious).

The September hunt will be at Coronado beach, the Sunday before Labor Day (6th) so it might be a good day. I'll send out a reminder assuming I don't have a "senior moment".

New Metal Detectors . . .

By Frank M. Trutta

Minelab USA has released its Go Find line of metal detectors. They have three models the Go-Find 20, Go-Find 40 and the Go-Find 60. These are priced from \$179.00 to \$309.00 and fold up into a very compact unit. Columbia Metal Detectors at 760 743-8516.

New Membership Cards

2015 to 2016 Membership Cards are available for pick up at the sign in table.
You will only have a card if you filled out a membership application since April 2015.

Any questions – please contact Charlene Myers at the sign in table.

All orange colored Membership cards have expired.

Thank you – You Make a Difference!

To Earl Sterrett with his presentation on how to find and file for gold claims.

To Blaine Cunningham for helping transport the library books to and from the meetings.

To each and every volunteer that it takes to run a meeting and all the behind the scene actions. You are appreciated.

Finds of the Month:

3 categories to enter: Gold, Gems and Minerals, Metal Detecting Finds

Bring in your best finds from last month. Prizes for 1st and 2nd place in all 3 categories.

*Remember, it is **quality**, not quantity!*

*** Limit your finds of the month to your ten (10) best finds ***

Too Much “Chatter”:

Way too much personal chatter (conversation) is going on during the meeting.

You will be asked to take your conversation outside.

This is in consideration of those that come to ‘hear’ the meeting.

Membership Cards are to be worn:

Your “gold” colored Membership cards are to be worn at the meetings.

This way we know that you are already a member.

Not to be stored in your claims guide or in a drawer.

Miner's Cookbook Corner:

By Judy Carpenter

Make Ahead Cherry-Almond Bars

1 cup shortening
 2 cups sugar (or 1 c. each brown - white)
 3 cups all purpose flour
 4 eggs, slightly beaten
 1 tsp vanilla extract
 1 tsp almond extract
 1 tsp salt
 1- 21 oz can of cherry pie filling

Blend shortening and sugar, mix in next 5 ingredients and mix well. Pour about 2/3 - 3/4 of the batter into a greased jelly roll pan or a 9" x 13" if you don't have a jelly roll pan: spread the cherry pie filling over the batter. Use the remaining batter to dot the top. Bake at 350 degrees for 30 to 40 minutes. After baking drizzle Almond glaze on top whole still warm. Cool and cut into bars.

Almond Glaze

1 c. powdered sugar
 1/2 tsp vanilla extract
 1/2 tsp almond extract
 2 - 3 TBS milk

Try these with other canned pie fillings like apple, peach or apricot. Bars freeze very well.

SPECIAL DRAWING

For a "10 Consecutive Day Pass" To LDMA's Duisenburg Claim for the whole family!

To be used at any time.

\$2.00 per Ticket or \$5.00 for 3 Tickets
 Drawing once we have reached \$100.00 in sales.

LDMA's Duisenburg Claim is located off of Hwy. 395 just north of Randsburg/Johannesburg.
 This is a 140 Acre Patented Claim.
 And is located West of TSSD's Freedom Claim.

You do not have to be a GPAA or LDMA member to enter.

SEPTEMBER OUTING:

Sunday, September 20th, 2015

Himalaya Mine Gem Dig

\$50.00 per person if more than 20 people sign up
Normally a \$75.00 per person value.

Dig is from 10:00am until 3:00pm

9:30am meet in front of the Lake Henshaw Resort/Campground and Restaurant

Himalaya Mine brings its tailing piles down to the campground for these digs.

Many minerals include: pink and green tourmaline, black tourmaline, quartz crystals, spessertine garnet, lepidolite, clevelandite and others.

Keep what you find.

Bring your own chair, lunch, water or drinks and something to take your finds home in.

You have to sign up in order to attend. Signup sheet at the back table.

BUCKETS – BUCKETS – BUCKETS – BUCKETS – BUCKETS – BUCKETS!

TSSD now has **BUCKETS with LIDS** to sell!

3 Gallon, food grade buckets **with** Lids!

Great for gold mining, gem hunting, storing items, storing food, storing animal feed and the list goes on.

\$2.00 each or 3 for \$5.00.

Bonita Cove “Seeded” Metal Detecting Hunt Results:

A “Seeded” Metal Detecting contest was held on Saturday, August 15th at Bonita Cove. Eleven were signed up, only nine of those showed up. Two members were detecting nearby and found us, making eleven.

Cliff Vaughan	82 coins	1 token
Trish Hegyi	72 coins	2 tokens
Rich Hegyi	89 coins	0 tokens
Dave Coolen	68 coins	0 tokens
Jerry Kaplan	154 coins	2 tokens
Michele Silva	96 coins	0 tokens
Robert Waldrip	85 coins	1 token
Brian Kinnear	122 coins	1 token
Jerry Goldstein	124 coins	2 tokens
Kalina	85 coins	5 tokens
Chester Nowicki	55 coins	2 tokens
TOTAL COINS	1032	16 TOTAL TOKENS

PRIZES – SILVER QUARTERS, SILVER DIMES, INDIAN HEAD PENNIES, 1800 YEAR OLD COINS, V NICKELS, PLUS SOME DONATED PRIZES.

August Meeting Summary:

148 people in attendance

17 Applications Received

Door Prize: Duane Desieno

50/50 Winner: Al Trevisan

Finds of the Month Winners:

Metal Detecting: Brian Kinnear and Michele Silva

Gems & Minerals: Janice Davies and Frank Huberts

Gold: Frank Huberts and Ron Cudmore

Gold Nugget Winners:

Michele Silva, Pat Regan, Don LaFollette, Charles King, Rom Neumeyer and Darren McKinney.

Large Gold Nugget Winner:

Steve Gessler

Metal Detector Winner – Minelab Go-Find 60:

Eddie Espinoza

PLP/MMAC Octoberfest:

Friday, October 9th thru Monday, October 12th, 2015 – Sleepy Bear Mine in Randsburg will be hosting a Octoberfest in honor of Jerry Hobbs. It is \$50.00 per person. Open for gold prospecting, metal detecting, hiking and off roading.

Websites to stay informed with:

BLM NewsBytes – a weekly publication - <http://www.blm.gov/ca/caso/getnewsbytes.html>

Western Mining Alliance – www.westernminingalliance.org

Public Lands for the People (PLP) - <http://plp1.org/home.html>

Supporting the Chapter:

“The Desert Magazine” on Disk – 1937 to 1983 - \$5.00 for the set. Limit two per family.

Drywasher/Gold Panning Test Kit (B.B.’s) - \$1.00 per bag.

Buckets – 3 gallon with lid - \$2.00 each or 3 for \$5.00.

Membership Card Holders with clip or pin style – \$2.00 each at Membership table.

Engraved Name Tags - \$12.00 each

Treasure Seekers Pins - \$6.00 each

Rubber Matt pieces - \$1.00 each

Bags of Gold Pay Dirt - \$10.00, \$25.00, \$50.00 and \$100.00 bags available for purchase (with limits).

Claims Guides - \$20.00 with your TSSD membership card.

Opportunity Drawings:

Door Prize – taken off the meeting sign in sheet

50/50 Split Drawing, Gold Nugget Drawing, Raffle Table Drawing

See Jerry Goldstein for your winning tickets!

TSSD does not charge dues. There is no cost to check out prospecting equipment, outings are free, prospecting our claims is free, the library is free, and the education and companionship are priceless and free.

Yet TSSD still has to pay rent, pay the mining claim fees, pay the storage bill for the equipment for you to use, gold and raffle item costs, printing fees and numerous other monthly costs.

Please support “your” club! Participate! Buy some tickets! Win!

A special ‘ticket’ is given to you for every \$20.00 spent at a meeting. This ticket is for a “Super Prize” that will be drawn at the February 2016 meeting.

Septembers “Quarterly Prize”:

*Garrett Ace 350 Metal Detector
And a Garrett Pinpointer*

Outings and Events:

September 2nd – Wednesday:

TSSD General Meeting
 210 Park Avenue, Escondido
 6:30pm

September 6th – Sunday:

Metal Detecting with John Howe
 Coronado Beach
 7:00am’ish
 10:00am meet up to share finds

September 20th – Sunday:

Club Outing – One Day
 Himalaya Mine Gem Dig – Lake Henshaw
 9:30am Arrival
 10:00am til 3pm

September 20th – Sunday:

Metal Detecting with Frank Trutta
 Mission Beach – south of the roller coaster
 7:00am
 10:00am meet up to share finds

October 7th – Wednesday:

TSSD General Meeting
 210 Park Avenue, Escondido
 6:30pm

At 50, Ring-Tab Beer Cans Are Now Officially Historic Artifacts

POSTED BY BLAKE DE PASTINO ON APRIL 13, 2015 IN 20TH CENTURY, ANTHROPOLOGY, ARCHAEOLOGY, ARTIFACTS, HISTORIC ARCHAEOLOGY, MIDDENS, WASHINGTON STATE

A simple relic of [20th century](#) life has taken on new meaning for archaeologists: The ring-tab beer can — first introduced 50 years ago — is now considered an historic-era artifact, a designation that bestows new significance on the old aluminum cans and their distinctive tabs that are still found across the country.

The ring-tab beer can first introduced in 1965 — is now considered a ‘historic-era artifact.’

“Once an artifact attains the 50-year threshold, it is eligible to be recorded as an archaeological site or an isolated find in most states,” said William Schroeder, an archaeologist with the firm [Reiss-Landreau Research](#) in Yakima, [Washington](#).

“This means that even beverage-can pull tabs are eligible for protection under state and federal laws.”

Schroeder discovered that this year marked the golden anniversary of the aluminum ring-tab while investigating a modern midden of beverage cans in [Washington State](#).

“I was tasked with a small survey near the Cle Elum Dam in central Washington,” he said.

“I encountered a small refuse scatter. It was full of beverage cans and bottles, some plastic oil quarts, et cetera. The cans were vintage, but I had no way to know for certain in the field whether or not the cans were historic — that is, 50 years old or older.”

Eventually he was able to discern labels on some of the cans that dated them to 1968 — not quite at the half-century threshold.

But the project still pointed out the need for a resource that archaeologists could use to date cans and their leftover tabs — which tend to be found more often than the cans themselves — and in turn help determine the historic value of sites where they’re found.

“Many folks have something of a fascination or passion for old beer cans, yet few had any knowledge that there were different kinds of openings, or that there was a way to tell the age based on the opening style,” Schroeder said.

After doing some research, he was able to find a comprehensive history of the American beer can — published by the Society for Historical Archaeology in 2009 — and then track down photographs of most of the known styles of tabs.

Schroeder then put this information together in a “key card” for archaeologists to use in the field.

Along the way, he found that, although other iterations of the pull tab were briefly used, the best-known version had reached an important milestone.

“*Ring* tabs came into existence in 1965 — and meet the minimum age threshold now!” Schroeder said.

At 50, Ring-Tab Beer Cans Are Now Officially Historic Artifacts (con't)

“They were typically teardrop in shape, with some having rounded distal margins, others squarish ... the big difference being the ring top. The early models had solid aluminum tabs, no hole, no ring. That distinguishes them right away.”

The ring-tab design was discontinued in 1975, after injuries were caused by people swallowing the metal tabs. It was replaced with a new modification called the StaTab, which used a flange of aluminum on the lid as a lever to press down on the sealed opening, a design that's still in use today.

These small changes in design can make a big difference, Schroeder noted, because the ring-tab's new status means it can be used to identify sites that may have historic value.

“If pull tabs are dismissed, it won't be the end of the world,” he said. “But it's our job to stop and consider these as artifacts and decide how to proceed.”

As an example, Schroeder cited a site that a colleague has been investigating in [Washington](#): a campground that became one of the first major meeting places for the gay and lesbian community in the Northwest in the 1970s.

“The site may well be eligible to the National Register of Historic Places as a Traditional Cultural Property,” Schroeder said.

“Yet all that remains are camp pads, fire rings, and pull tabs. So, theoretically, the pull tabs may be the only way to place a temporal frame around the site, as none of the features will reveal specific enough age or date range.

Part of Schroeder's key card for can identification shows how opening mechanisms changed over time.

At 50, Ring-Tab Beer Cans Are Now Officially Historic Artifacts (con't)

Schroeder stresses that the mere presence of 50-year-old ring tabs doesn't automatically endow a site with protected status. And in some states, the age threshold for historic significance can range from 45 to 75 years.

But the 50th anniversary of the ring-tab is just the latest reminder that once-forgotten bits of material culture are constantly taking on new meaning as they age, a process that archaeologists need to heed.

"Some folks were disgusted with the thought of having to record an archaeological site of pull tabs; others are excited at the opportunity," Schroeder said.

"Some find the artifact so mundane that it is not worthy of recordation, yet they'd stop to record a hole-in-top can.

"It is a phase shift — people need to begin to recognize the artifacts, have a reliable reference, and actually take the time to figure out whether or not the artifacts are a cultural resource.

"It's going to take time until pull tabs become recognized to the extent that field personnel will *know*, 'Hey, this is a site!', just like they would if they found three pieces of cryptocrystalline silicate debitage [bits of stone used for making tools] on the surface," Schroeder added.

"I look forward to that day."

CLASSIFIEDS:

For Sale:

Recirculating Sluice – all self contained (Tub, Stand, Pump, Sluice box). You will need a battery to operate.

Asking \$200.00.

Contact Frank Huberts – 760-758-2378.

TSSD Membership:

Membership to Treasure Seekers of San Diego is free. We do not charge an annual dues. All that is asked is that you attend meetings, participate and support the group through its opportunity drawings and events. To maintain membership, you **MUST** attend one meeting every four months.

- | | |
|--------------------------|--|
| 1 st meeting: | Complete and turn in a membership application. |
| 2 nd meeting: | You will be given your TSSD membership card. |
| 3 rd meeting: | You will be able to purchase a TSSD Claims Guide with proof of your membership card. |

G.P.A.A.:

Treasure Seekers of San Diego is a chapter of G.P.A.A.. This does not require you to become a member of G.P.A.A. but if you are, please advise them that you are also a member of TSSD, so that we are eligible for 'points' from your membership. TSSD uses those 'points' to obtain opportunity raffle items.

Did you know...

1. If you invite a guest to one of the claims held by TSSD you **MUST** be in attendance. Writing a note or permission slip to be on the claim and prospecting **WITHOUT** you is a **NO-NO**. This is for liability reasons. In the last several months TSSD members have come across people working our claims with these so-called permission slips (and verbal permission) from individual members.
2. A mining claim only holds the rights to the minerals and the land is normally owed by BLM. But there are laws and regulations that govern a mining claim and the liabilities that go with it. And we, as Treasure Seekers of San Diego, need to protect our rights and liabilities to our claims.
3. The same goes for the GPAA claims. Please refer to the GPAA mining claim handbook for their rules.
4. Treasure Seekers of San Diego looks forward to many good years of prospecting for the members and we do not want to lose any of our claims due to a violation. Again guests are always welcome – but you need to be in attendance with their presence. And they must sign TSSD's liability form in order to prospect.

TSSD Equipment for Member's Use:

- 2 Sluice Boxes – 3 feet long
- 1 Sluice Box – 4 feet long
- 1 Mini Recirculating 9 inch sluice with pump, motor and tub
- 1 Mini Recirculating sluice with pump and motor (no tub)
- 1 Highbanker with motor and pump
- 1 Small Dry Washer (no leaf blower)
- 1 Large Dry Washer (Keene 151 with leaf blower)
- 1 Magnetic Sweeper on rollers
- 1 Au-nique Vac

TSSD has equipment that it loans to its members. All we ask is that anything that is checked out is returned in the same or better condition than when it was borrowed. It is understandable that with the nature of our hobby, the equipment will get some bumps and bruises, which is acceptable. But if parts are lost or broken, it is the responsibility of the 'borrower' to repair or replace missing or broken parts. Further details of the equipment check out policy is on the form which you will sign when receiving the item.

Earl Sterrett, 858-922-4547, will be able to assist you with the equipment checkout. He asks that you give him a couple of days' notice when you might need something, and when items are returned that they are CLEAN. All equipment must be returned by the meeting following when it was checked out. Equipment is located at Diablo Mini Storage in Escondido.

TSSD Library:

Treasure Seekers of San Diego has a tremendous library for its members' usage. Librarian, Roz Laffoon, will gladly assist you in checking out books, magazines, VHS/DVD's that show you gold locations and history, treasure hunting, maps and knowledge of what to look for. Anything that is related to gold, gems and treasure hunting is available.

TSSD Claims Guides:

TSSD Claims Guides are available for purchase for \$20.00 (Twenty Dollars).

Inside each guide you will find:

1. List of Officers
2. Current year calendar of events
3. Claim Rules and Regulations
4. Chapter Support and Claims Etiquette
5. Equipment for members to check out and use
6. Claim do's and don'ts
7. What to expect at an TSSD outing
8. Using Dowsing Rods
9. Detailed maps and information pertaining to the 15 claims of TSSD.

Claims Assessment Work Form:

Each and every time you are at one of TSSD's claims, you should be completing a Claims Assessment Work Form (located in the front of the claims guides, or at the meetings from the Claims Guide Seller). This form needs to be turned into Robert Cook, TSSD Claims Manager, at the meetings or e-mailing it to him at: rmjcc@cox.net or surface mail to: 1941 Rockhoff Road, Escondido, CA 92026-1113.

Needed information required: Claim used, Members name, Date used, Total people prospecting and time on the claim, Type of work done (clean up, maintain, filling in holes, etc.), Members signature, Claims access, Vehicle access, Claim Markers, Claims Guide Directions, Type of equipment used, Type of gold found.

It sounds like a lot, but it really is not. This information is needed to prove that our claims are being worked. If BLM questions us as to the use of our claims or wants to close one of our areas to prospecting we want to be able to produce records that show that our claims are being used.

Claim Assessment Work forms are available at the sign in table. Please return to Robert Cook.

TSSD Mining Claim(s) Corrections:

Please note the following corrections in your copy of the TSSD Claims Guide:

1. Friendly Fox Claim:
 - a. The BLM Route to the claim is #663 (mile marker 10).
2. Warner Springs Gem Claim:
 - a. The Forest Route to the claim is #9S05 (Lost Creek Rd.).
3. TSSD Cargo Claims:
 - a. The turn off from Sidewinder Road is BLM Route #715.

How to read and coordinate your GPS with TSSD Mining Guide:

1. Maps used in Claims Guide are Delorme Maps
2. Measurement is "Statue Miles"
3. GPS Coordinates are "degrees"
4. Datum is "WGS84"
5. Bearing is "True North"

Treasure Seekers of San Diego County Mission Statement

Treasure Seekers of San Diego County (T.S.S.D.) was officially organized on May 21, 2003 when the election of officers was held. We are a G.P.A.A. chapter. Non G.P.A.A. members may attend meetings and participate in the raffle, but are not eligible to vote, hold office, be on the claims committee, or utilize G.P.A.A. claims. The purpose of this organization is to provide an environment to increase public awareness, with education and training, of locating, identification and legal removal of minerals, caches and treasures while keeping in mind the preservation of the environment and wild habitat.

Meetings are held at the Park Avenue Community Center (formerly Joslyn Senior Center)

210 Park Avenue, Escondido CA

On the first Wednesday of each month, 6:30pm – 9:00pm
